Your Future  
Globally

## Real Estate Insurance

Honan has provided innovative insurance solutions to the Real Estate industry Australia wide for many years. It is this long standing experience that allows us to respond quickly to the ever changing market trends.

Through our extensive relationships with Insurers and Underwriters we have been able to create insurance solutions to meet all your insurance needs including:

- Professional Indemnity Insurance
- Office Pack Insurance
- Motor Vehicle Insurance

You can also become a distributor of our products including Residential Strata, Commercial Strata, Landlords and Home/Contents insurance, to assist your property owners with their insurance needs.

For more information about our service or our products please call our office to explore the opportunities available with Honans.

If you're a landlord and own an investment property that is being rented for domestic or residential purposes, Landlord Insurance will help insure your asset.

Why? because sometimes, even dream tenants turn into a nightmare. If the tenant intentionally damages your investment property or stops paying rent, standard home insurance or strata title insurance may not be enough to cover your loss. (see section titled "Common Claims covered by Landlord Insurance")

Honan, with its extensive experience in the Real Estate industry has designed a policy to help protect your investment.
